

Project Goals / Proposed Purpose and Need

Project Goals

- Make the West MLK Drive Corridor accommodating for pedestrians, bicycles, and transit
- Decrease crash rates for vehicles and pedestrians
- Reduce congestion and improve intersection turning capabilities
- Complete construction with minimal impacts on the community
- Keep the community informed on the project's progress and schedule
- Coordinate with other roadway projects (I-75 Hopple Street Interchange)

Proposed Purpose and Need

The purpose of this project is to address roadway safety concerns along West Martin Luther King Jr. Drive (West MLK Drive) from near West McMicken Avenue to Clifton Avenue by improving roadway deficiencies, enhancing operations, and providing infrastructure to enhance travel for pedestrians and bicyclists.
